

User Manual for PhotoResizer

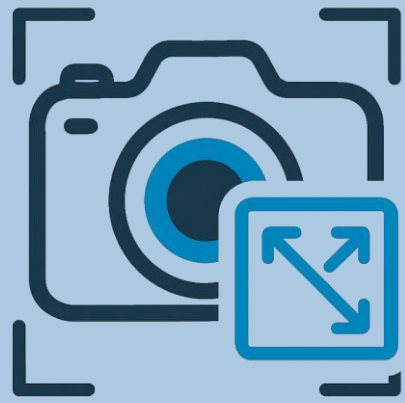

1. What is PhotoResizer?

PhotoResizer is a user-friendly tool that allows you to:

- Upload your own images directly from your computer, mobile, or tablet – while preserving the original proportions and easily selecting a crop.
- Resize images (e.g., 1:1, 4:3, 16:9) for better fit on social media, presentations, websites, and more.
- Move images manually on the canvas to set their position and framing.
- Zoom and rotate images so they fit your purpose perfectly.
- Save images in various formats (PNG, JPG, WEBP, etc.) depending on your needs.
- Collect multiple edited images in a ZIP file ready for download.

PhotoResizer runs directly in your browser without the need for installation, making it quick and easy to use — whether you're working from the office, home, or on the go.

With PhotoResizer, you get a flexible solution for managing images, whether for personal use, work, social media, or teaching.

2. How to use PhotoResizer on PC (Windows, Mac, Linux)

- Click on one or more icons (e.g., Facebook, Instagram, Camera) to filter size options. Selected icons have a black border. Deselect to show all sizes.
- When choosing 'Ellipse' as format, manually enter both width and height to adjust the size. Use the cropping tool to adjust the image to an oval shape.

1. Upload image:

- Click on "Drop images here" or drag files directly into the drop area.

2. Choose size:

- Select a predefined size or enter width and height manually.

3. Move image:

- Click and drag the image with your mouse.

4. Zoom image:

- Use the mouse scroll wheel to zoom in or out.

5. Rotate image:

- Click on the "Rotate Left" or "Rotate Right" buttons.

6. Save image:

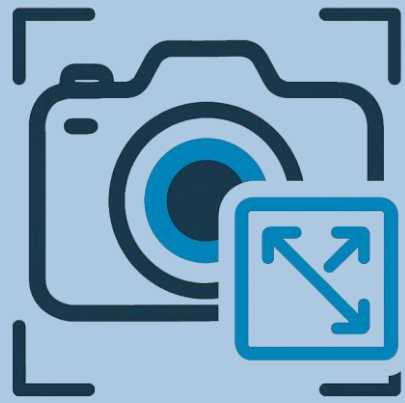

- Click on "Save Position".

7. Download:

- Click on "Download Image" or "Download ZIP" for multiple images.

8. Switch theme:

- Click on "🌙 Switch to Dark Theme" for a darker interface.

3. How to use PhotoResizer on Mobile and Tablet (Android, iOS)

• The Ellipse format works on mobile and tablet as well. Enter width and height manually, and use the cropping tool to adjust the image.

1. Upload image:

- Tap "Drop images here" and select an image.

2. Choose size:

- Select a size or set it manually.

3. Move image:

- Use one finger to drag the image.

4. Zoom image:

- Use two fingers (pinch zoom) to zoom in or out.

5. Rotate image:

- Tap "Rotate Left" or "Rotate Right".

6. Save image:

- Tap "Save Position".

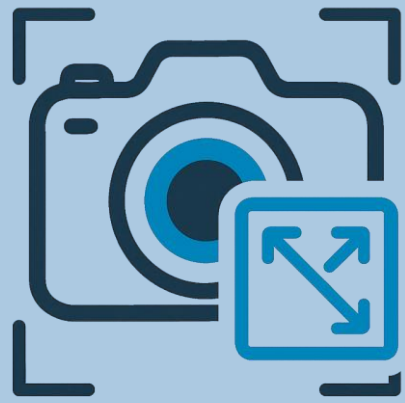

7. Download:

- Tap "Download Image" or "Download ZIP".

8. Switch theme:

- Toggle between light and dark mode as needed.

Note: On some mobile devices, images are saved directly to the Downloads folder.

4. Tips, Email, and About PhotoResizer

Send images via email

- Click the mail icon.
- You'll be reminded to save images first.
- Your email app will open — remember to manually attach the image(s).

Tips & Tricks

- Zoom gently to avoid distortion.
- Rotate the image to match the desired aspect ratio.
- Use the "Reset All" button at the bottom of the page to start over.

About PhotoResizer

- Developed for fast image adjustments without installation.
- Runs directly in your browser.
- No account required.
